

# Broiler

## PRODUCT PORTFOLIO

Kemin uses advanced molecular science to develop industry-leading solutions for broiler gut health, nutrition, feed quality, and pathogen control. It's just one of the ways we sustainably transform the quality of life every day for 80% of the world with our 500+ ingredients, which are all backed by technical, lab, and product support. This ensures you have a partnership where you get the most out of every product. We use our decades of experience and scientific expertise to unlock discoveries that improve broiler health and performance – from better immune function to nutrient absorption.

### Meet Your Kemin Broiler Team

Kemin Animal Nutrition and Health has an expansive team of technical, sales, and marketing experts in the poultry market, along with a legacy of building relationships and leveraging expertise to maximize your production potential.

# KEMIN BROILER PRODUCT PORTFOLIO

## Feed Quality

### ANTIOXIDANTS

ENDOX® dry antioxidant  
 NATUROX® Plus dry antioxidant  
 NATUROX® Premium liquid antioxidant  
 RENDOX® AET liquid antioxidant  
 RENDOX® AT 20 liquid antioxidant  
 RENDOX® CQ liquid antioxidant  
 RENDOX® RG liquid antioxidant  
 KN-50 IP organic-compliant liquid antioxidant

### MOLD INHIBITORS

Ammo CURB® dry and liquid mold inhibitor  
 KALLSIL® zeolite anticaking aid  
 Myco CURB® dry and liquid mold inhibitor  
 Ultra CURB® dry and liquid mold inhibitor  
 SHIELD® Granules dry mold inhibitor

## Pathogen Control

### FEED SAFETY

Sal CURB® liquid antimicrobial

### WATER QUALITY AND PREMISE DISINFECTION

KEM SAN® liquid antimicrobial  
 OXINE® AH and PRO-OXINE® AH

## Pelleting Efficiency

### SURFACTANTS

MillSAVOR™ liquid  
 MillSAVOR™ liquid concentrate

## Nutrition

### TRACE MINERALS

KemTRACE® Chromium trace mineral  
 KemTRACE® Chromium-OR OMRI Listed® trace mineral  
 KemTRACE® Zinc OMRI Listed® trace mineral

### BIO-SURFACTANT

LYSOFORTE® dry biosurfactant  
 LYSOFORTE® Extend dry biosurfactant

## Gut Health

### ACTIVE MICROBIALS

CLOSTAT® dry active microbial  
 CLOSTAT® WS active microbial  
 CLOSTAT® 500 active microbial  
 CLOSTAT® Green organic-compliant active microbial  
 ENTEROSURE® organic-compliant active microbial

### INTESTINAL INTEGRITY

ButiPEARL® encapsulated source of butyric acid  
 ButiPEARL® Z encapsulated source of butyric acid and zinc  
 FORMYL™ Na encapsulated formic acid

### PHYTOGENICS

Aleta™ 1,3-beta glucan  
 VANNIX™ C4 novel blend of phyto-genics and probiotics

## Kemin is your one-stop shop

Services and support to maximize the value of your Kemin ingredients.

### KEMIN CUSTOMER LABORATORY SERVICES

Our lab services include testing for:

- Feed quality
- Feed safety
- Oxidation control
- Water quality

### KEMIN APPLICATION SOLUTIONS

Our team can help you with:

- Site surveys
- Equipment design
- Installation
- Commissioning
- Ongoing maintenance

### KEMIN TECHNICAL SERVICES

Turn to our team for support with:

- Product recommendations
- Research collaboration
- Trials
- Protocol development
- Troubleshooting
